

Ameba

by Cooloo

Ameba

by Cooloo

A sustainable frameless design

A seamless product, suitable for indoor and outdoor use. The chair has wonderful comfort and very good stability.

This stylish organic design by Hugo de Ruiter was awarded the Good Industrial Design Award. Within the concept “less is more”, this product consists of only three materials which makes it easy to repair, refurbish and recycle.

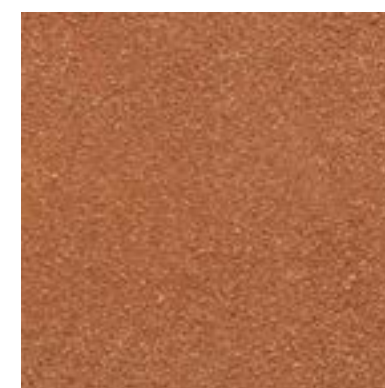

Ecological in coating

Ameba
by Cooloo

Ameba can be finished with our CoolLeather, CoolCork or CoolJeans coating. Three award-winning examples of finishings that integrate waste from the local leather, cork and textile recycling industries.

The highest quality materials are used that are solvent and CFC free to reduce our ecological footprint.

In our quest for longevity and sustainability, Cooloo offers re-finishing of your Ameba product after its' first life cycle of 7 to 10 years. The perfect product example of Cooloo's Endless Life concept.
