Linear Elements For Circular Environments

This modular soft seating can be moved, removed, reconfigured and playfully shaped throughout your lounge area, public space or office. Create your own landscape with the Landscapes.

Designed by famous Dutch architects DoepelStrijkers based on the intrinsic qualities of the materials and with sustainability and circularity at the heart.

Ecological in coating

Landscapes
by Cooloo

With minimal cutting and waste material, a simple linear element is created and finished with one of the Cooloo circular coatings. In it's simplest form, a single element can be used for sitting.

When combined with more elements, a multiple of configurations are possible, resulting in an array of spatially intriguing compositions facilitating sitting, lounging, lying and meeting configurations.

Landscapes can be finished and mixed & matched with all Cooloo soft finishings. The highest quality materials are used that are solvent and CFC free to reduce our ecological footprint.

CoolCork

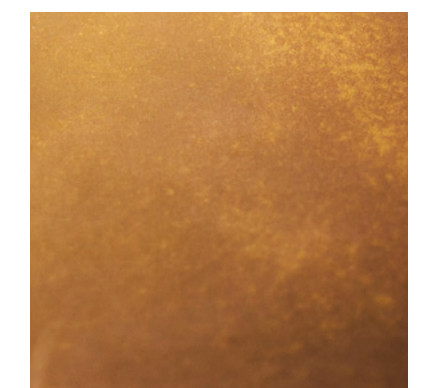

CoolLeather dark

CoolLeather light
