Repurposing, the Cooloo way

Cosmo
by Cooloo

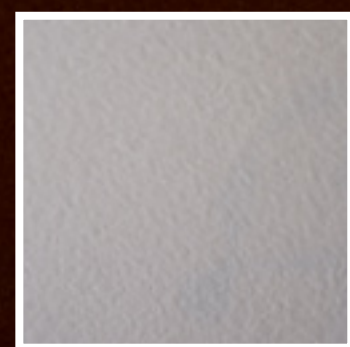

The Cosmo is a comfortable and calming combination of repurposing and recycling. A perfect example of multiple circular strategies in one high-end product.

The iconic shape from the old ING bank stores, designed by DsignMarking, was used to introduce internet banking back in the 2000's. After years of use, it is now transformed into a soothing seating hub by Cooloo. The molded shape gets a new look and feel by applying Econcrete. Combined with the wooden frame and soft pillow it is ready for a second life.
